## REACH & TSCA DECLARATION

Dear Customers,

We hereby inform you that according to the following regulations:

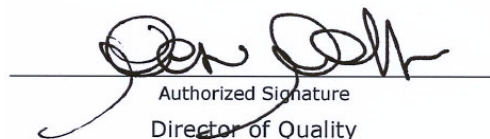

1. **EU REACH 1907/2006 – candidate list 240 SVHC** as update of **24 January 2024** by ECHA: The Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) Regulation requires the identification of Substances of Very High Concern (SVHC) contained in articles above the threshold 0.1% w/w manufactured and marketed in the EU (Legal Reference EC 1907/2006);
2. **RoHS 2 Directive 2011/65/EU** identifying 10 hazardous substances and EU Directive **2017/2102** amending Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment;
3. **Toxic Substances Control Act (TSCA)** modified by Lautenberg Chemical Safety Act of 2016 June 22 **and February 2024** update

Sotras **does not** import, manufacture or distributes components within chemical substances or preparations (SVHC) that need pre-registration or registration under REACH.

REACH Candidate Substances of Very High Concern **ARE NOT CONTAINED** in our Products, in other words, our products **do NOT contain** chemical substances or preparations (SVHC) over the threshold level that may be released during normal and reasonably foreseeable conditions of use, in particular do NOT contain **ASBESTOS** or asbestos by products.

However we assure you that we have carried out with our suppliers an information process aimed at excluding and, where needed, at handling the presence of very high concern substances (SVHC) that may be included in the future into Annex XV of REACH Regulation.

Rev. 01/03/2024
